You are invited to an
Honoring Choices Massachusetts Workshop

Health Care Planning and Person-Centered Care Through Effective Conversations & Connections

The best possible care that honors your choices at every phase of health.

Join us for this innovative, hands-on workshop and continue the health care planning conversations that we have started in Central Massachusetts. Our goal is to empower all adults and families, 18 years old and older, to make a health care plan and receive person-centered care that honors their values and choices. Through large group discussion, we will offer powerful tools and proven strategies to help meet your everyday challenges when engaging adults in planning discussions. Participate in collaborative round table discussions to generate our next steps towards building a coordinated continuum of lifelong care in our community.

Participants will:

- Learn how to engage adults in early and on-going planning discussions at every phase of health;
- Receive up-to-date health care planning information, the 5 Massachusetts planning documents tools, and effective consumer-care provider discussion guides;
- Understand how to become an Honoring Choices Community Partner and join your colleagues in our growing statewide network!

Please Join Us!

Date: Wednesday, May 11, 2016

Time: 8-10am

Place: Congregation Beth Israel,
5 Jamesbury Dr., Worcester

No Cost; Space is Limited

RSVP Required. Register today!
