

Let's Get Ready for April National Health Care Decisions Month!

You are invited to

Health Care Planning Ambassador Program Train-the-Trainer Workshop

March 7, 2018 3:00 PM, Cape Cod Hospital

**The NEW Health Care Planning Ambassador Program
can extend your reach into the community to help adults
anywhere they live, work and gather!**

Ambassadors are volunteers who engage adults & families in powerful peer-to-peer planning discussions and help adults connect to essential care to improve healthy living.

Here's how it works:

- You select interested volunteers to represent your organization;
- Honoring Choices supplies everything you need so your Ambassadors can confidently talk with friends, family and people in the community about completing a Health Care Proxy and Personal Directive (Living Will);
- Ambassadors help connect adults back to you to access needed care & services. [Read more here.](#)

Program Director Denise Skrocki will provide the train-the-trainer workshop and on-going support to start a fun and successful Ambassador Program at your organization.

Receive the "April NHDM Celebration Packet." Come join us to share ideas and tools to enhance your April events. Honoring Choices will promote your events and the work of your Ambassadors on our special April NHDM webpage.
