

You are invited to

Health Care Planning Ambassador Workshop

Wednesday, May 30, 2018, 9:00am-10:30am

Faculty Conference Room - UMass Medical School S1-342
UMass Memorial University Campus, 55 Lake Avenue North, Worcester

Become an Ambassador to help your friends, family, patients and everyone in your community make a health care plan and connect to care!

UMass Memorial Health Care is co-hosting this workshop for all Care Providers, Staff and Community Organizations.

Come join us for a unique workshop and receive tools to:

- Help adults create a Health Care Proxy & Personal Directive (Living Will)
- Start an Ambassador Program in your practice or community organization to empower your volunteers/staff to start planning discussions to improve healthy living.

Ambassadors are volunteers, staff or any interested community member who can start care planning discussions with adults and families. We'll supply you, or your group/organization, with **"The Getting Started Tool Kit"** and everything you need so you can confidently talk with your friends, family, colleagues, patients, clients and fellow congregants about completing a Health Care Proxy and Personal Directive (Living Will).

Who can attend:

1. Individual volunteers, medical staff, students, support staff or any team member
2. Health care, faith-based and community groups who want to start an Ambassador Program for your volunteers & community members
3. Bi-lingual adults to help adults & families complete a Health Care Proxy in Spanish, Portuguese, Traditional Chinese, Haitian-Creole, Vietnamese, Khmer, Albanian, Arabic, and Russian

Everyone is Welcome! Let's help all adults & families make a plan and connect to quality care within their language, culture and ability.

It's Free. Space is limited; must register below. [Read more and Meet the Ambassadors here.](#)

How to Register: Register on the **Eventbrite page**
