

Personal Directive

Short Form: Instructions and Document

A **Personal Directive** is a personal document, not legally binding in Massachusetts, in which you give your Health Care Agent (“Agent”), family, doctors and care providers information about what’s important to you and instructions about the kind of care you want and do not want. Your Personal Directive acts as your voice when you are unable to communicate or make care decisions for yourself.

- If you have chosen an Agent in a Health Care Proxy, your Agent uses your Personal Directive as a basis to make health care decisions on your behalf, and to talk with others about your care.
- If you have not chosen an Agent yet, your Personal Directive gives important information to your family, doctors and care providers to help them match quality care to your values and choices.

Instructions: Print this document and place the instructions page and blank form side by side in front of you. Follow the instructions and write in what you’d like others to know about your values, beliefs, goals and choices. Use both sides for more space. You can make changes anytime, as long as you are competent.

On the first line print your full name in the blank space, followed by your address. Check the box that applies about your Agent. If you have a Health Care Proxy, you can attach it to this document.

I. My Personal Preferences, Thoughts and Beliefs

- Let others know what’s most important to you (family, friends, work, faith, activities...)
- Write in anything you like to help others match care & services to your values and choices.
- Add information to help others manage your personal affairs while you recover or longer.

II. People to Inform about My Choices and Preferences

- List the names of family, friends and others you’d like to inform, and how they can help.

III. My Medical Care: My Choices and Treatment Preferences

- A. Current Medical Condition: Share information and your care preferences.
- B. Life-Sustaining Treatments: Cardiopulmonary resuscitation (CPR), artificial ventilation and breathing, and artificial hydration and nutrition are treatments intended to prolong life by supporting an essential body function, when the body is not able to function on its own.
Talk to your doctors about the risks, benefits and possible outcomes of attempting these treatments given your medical condition. Check the box or write in your instructions.

IV. Other Information, Instructions and Personal Messages:

- Write in (and attach additional pages) to provide information about your care, instructions for managing your personal affairs or pets, or personal messages to deliver to others.

V. SIGNATURE and Date

- Sign your full name and fill in the date as you sign it. You can revise or reaffirm this document.

Important: Keep the original and give a copy to your Agent, family, doctors and anyone else you would like. You can make changes or add information all through your life, as long as you are competent. Read more about the Personal Directive at www.honoringchoicesmass.com

B. Life-Sustaining Treatments

1. Cardiopulmonary Resuscitation (CPR) is a medical treatment used to restart the heartbeat and breathing when the heartbeat and breathing have stopped. My choices are:

- I do not want CPR attempted but rather, I want to allow a natural death with comfort measures;
 - I want CPR attempted unless my doctor determines any of the following: • I have an incurable illness or irreversible injury and am dying • I have no reasonable chance of survival if my heartbeat and breathing stop • I have little chance of long-term survival if my heartbeat and breathing stop and the process of resuscitation would cause significant suffering;
 - I want CPR attempted if my heartbeat and breathing stop;
 - I do not know at this time and rely on my Health Care Agent to make care decisions.

2. Treatments to Prolong My Life

If I reach a point where I am not expected to recover and regain the ability to know who I am, here are my choices and preferences for life-sustaining treatment:

- I want to withhold or stop all life-sustaining treatments that are prolonging my life and permit a natural death. I understand I will continue to receive pain & comfort medicines;
 - I want all appropriate life-sustaining treatments for a short term as recommended by my doctor, until my doctor and Agent agree that such treatments are no longer helpful;
 - I want all appropriate life-sustaining treatments recommended by my doctor;
 - I do not know at this time and rely on my Health Care Agent to make care decisions.
