

Connecting Clinicians & Patients through MA e-MOLST Web Portal

[NEW VIDEO](#): Learn how to start proactive planning conversations and document patient choices on an e-MOLST form.

Over 85 care providers and organizations are using the e-MOLST web portal to engage patients and their legal advocates in a high quality serious illness conversations. The new web portal provides conversation guides to gain a shared understand of patient goals & choices, an e-MOLST form to document patient choices, and a link to a MA Health Care Proxy in 10

languages. Patients can use their smart devices or email address to digitally sign the e-MOLST form.

We've been hosting **Introductory MA e-MOLST Web Portal Webinars with the Honoring Choices Partners**, and exchanging ideas to improve workflow within your organization and across care transitions. Many of you have asked for the [recorded webinar](#). Click the blue button below to see **the recorded webinar all the helpful resources** to get started!

Telehealth News: How are we doing?

" Telehealth is a blessing much needed in primary care This way of practice is modern, fresh, and needed reform in our practice..."

"I'm seeing huge disparity in English speaking and non-English speaking access to telehealth at the outset..."

These are just two of the many thoughtful comments submitted by clinicians in the "[Together for Better Telehealth](#)" survey series, from the Massachusetts Health Quality Partners (MHQP), an Honoring Choices Partner. The surveys are open to all clinicians and are intended to help improve the safety and quality of care across all specialties.

[Wave 1, 2 and 3 survey results](#) are in and offer practical tips, the clinician's experience, and suggestions for improving the patient experience. See the results [HERE](#)

Wave 4 Survey is ready to go. Take 5 minutes to share your experience [HERE](#).

Barbra Rabson, President & CEO, MHQP, has written an excellent article, "[From Pandemic Fix to Permanent Fixture: How to Ensure Telehealth Lives Up to Its Full Potential](#)".
